

NOME: _____ DATA: _____

ESTRATÉGIAS DE ADIÇÃO

- Junta primeiro os dois números cuja soma seja **20**. Observa o exemplo.

$$\textcircled{12} + 3 + \textcircled{8} = 20 + 3 = 23 \quad \textit{vinte e três}$$

$$13 + 6 + 7 = \underline{\quad} + \underline{\quad} = \underline{\quad} \quad \underline{\hspace{2cm}}$$

$$6 + 3 + 17 = \underline{\quad} + \underline{\quad} = \underline{\quad} \quad \underline{\hspace{2cm}}$$

$$18 + 2 + 5 = \underline{\quad} + \underline{\quad} = \underline{\quad} \quad \underline{\hspace{2cm}}$$

$$8 + 1 + 19 = \underline{\quad} + \underline{\quad} = \underline{\quad} \quad \underline{\hspace{2cm}}$$

$$3 + 12 + 8 = \underline{\quad} + \underline{\quad} = \underline{\quad} \quad \underline{\hspace{2cm}}$$

$$9 + 10 + 10 = \underline{\quad} + \underline{\quad} = \underline{\quad} \quad \underline{\hspace{2cm}}$$

$$16 + 8 + 4 = \underline{\quad} + \underline{\quad} = \underline{\quad} \quad \underline{\hspace{2cm}}$$
