

1.

- 1.1. Para determinar o centro  $O$  da circunferência desenham-se as bissetrizes de dois ângulos internos do triângulo. O raio da circunferência é  $[OD]$ , sendo  $D$  o ponto de  $[AB]$  tal que  $[OD] \perp [AB]$ . Com o auxílio de um compasso desenhou-se a circunferência pedida.

1.2. Incentro

2.

- 2.1. O ponto  $P$  é o circuncentro do triângulo  $[ABC]$ .

- 2.2. O ponto  $O$  é o ortocentro do triângulo  $[ABC]$ .

3.

3.1.  $\overline{AO} = \frac{2}{3}\overline{AM} = \frac{2}{3} \times 6 = 4 \text{ cm}$

3.2.  $\overline{OM} = \overline{AM} - \overline{AO} = 6 - 4 = 2 \text{ cm}$

3.3.  $\overline{BO} = \frac{2}{3}(\overline{BO} + \overline{ON}) \Leftrightarrow \overline{BO} + \frac{2}{3}(\overline{BO} + 1,5) \Leftrightarrow 3\overline{BO} = 2\overline{BO} + 3 \Leftrightarrow \overline{BO} = 3 \text{ cm}$

3.4.  $\overline{BN} = 3\overline{ON} = 3 \times 1,5 = 4,5 \text{ cm}$

4.

4.1.  $\overline{AM} = 15 \text{ cm}$

4.2.  $\overline{OC} = 12 \text{ cm}$

4.3.  $\overline{ON} = 6 \text{ cm}$

5.

5.1.

5.2.

5.3.

#### 5.4.

5.4.1. 7,5

5.4.2. 9

5.4.3.  $\sqrt{137,25}$

5.4.4.  $\frac{\sqrt{1\ 3725}}{3}$

5.4.5. 3,75

5.4.6.  $\sqrt{338,0625}$

5.4.7.  $\frac{\sqrt{338,0\ 6\ 25}}{3}$

5.4.8.  $\frac{2\sqrt{338,0\ 6\ 25}}{3}$
